"I can't wait to show these trails to women in the UK! They're amazing and the beauty of the uplift is that everyone can make their own way down, at their own pace and the van will be there waiting for them. I want to create an experience where women encourage and stoke off each other - it's not a coaching holiday, it's an encouragement holiday! We can all chip in, push each other to ride to the best of our abilities and shred all day, every day. It doesn't get much better than this! Come join me and give me a shout if you have any questions"
